

DANIEL K. ROBERTSON

Dan Robertson is a patent agent and has experience in working directly with inventors in preparing and prosecuting domestic and foreign patent applications (including PCT) in primarily the electrical, electronic, software and mechanical devices arts. Technologies include inventions dealing with wireless telecommunications and related devices, digital signal processing, computer hardware and software, digital and analog circuitry, Internet and e-commerce software, business methods, digital media broadcast, rehabilitation equipment and others. He has significant experience in preparing amendments and other responses to Office actions and has assisted with international filings. Dan also conducts patentability and validity research and analysis and documents findings.

Prior to joining AlbertDhand LLP, Dan has worked as a patent agent at various other law firms including Knobbe Martens Olsen & Bear LLP, Kilpatrick Townsend LLP, and Cooley LLP. Prior to becoming a patent agent, Dan held various engineering positions in both the aerospace and electrical engineering fields.

Dan is registered to practice before the U.S. Patent and Trademark Office and is a member of the Institute of Electrical and Electronic Engineers.
